☺ In that case we have it...for now. I will get the description penned up today.

I had a 250 mile drive to Columbia, SC this morning for a meeting at the university about Disinfection By-Products and am catching up with email, crashing an hour, then back to work to finish the PFAS list story up. Cheers

Hi Tony - When I made reference to 'discussed in other places', I was referring to you and your dialogue with OCSPP ... so you are not only already in the discussion, **you ARE the discussion...**

And I am very glad that you are... Thanks, Andy

Thanks for the update. I like the new name.

On UCMR3, I think we stick to our approach, use the OW-published zip codes unless they have/publish something better. Mike, are we at the point where I should discuss with Jennifer McLain?

On the definitions, this issue is also being discussed in other places for other purposes. Not sure what kind of decision is needed for now – can we make a simple interim decision for now?

**[AJW>] Would it be beneficial for me to be a part of this discussion so that I can provide input regarding what is possible from an informatics point of view? The interim decision is made and the list is up here**

**Ex. 6 Personal Privacy (PP)** I need to write up a list description and get it signed off then I will make it a more “permanent” list, until the next one...
